From the
INTERNATIONAL PRELIMINARY EXAMINING AUTHORITY

PCT

NOTIFICATION OF TRANSMITTAL OF
THE INTERNATIONAL PRELIMINARY
REPORT ON PATENTABILITY

(PCT Rule 71.1)

To:

SCHWANDER, Kuno, Josef
Roche Vitamins Ltd.
Wurmisweg 576
CH-4303 Kaiseraugst
SUISSE

Date of mailing
(day/month/year)

04.03.2005

Applicant's or agent's file reference
Case 21722

IMPORTANT NOTIFICATION

International application No.
PCT/EP2004/003110

International filing date (day/month/year)
24.03.2004

Priority date (day/month/year)
03.04.2003

Applicant
DSM IP ASSETS B.V.

1. The applicant is hereby notified that this International Preliminary Examining Authority transmits herewith the international preliminary report on patentability and its annexes, if any, established on the international application.
2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translation to those Offices.

4. REMINDER

The applicant must enter the national phase before each elected Office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices) (Article 39(1)) (see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary report on patentability. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details on the applicable time limits and requirements of the elected Offices, see Volume II of the PCT Applicant's Guide.

The applicant's attention is drawn to Article 33(5), which provides that the criteria of novelty, inventive step and industrial applicability described in Article 33(2) to (4) merely serve the purposes of international preliminary examination and that "any Contracting State may apply additional or different criteria for the purposes of deciding whether, in that State, the claimed inventions is patentable or not" (see also Article 27(5)). Such additional criteria may relate, for example, to exemptions from patentability, requirements for enabling disclosure, clarity and support for the claims.

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.
PCT/EP2004/003110

Box No. I Basis of the report

1. With regard to the **language**, this report is based on the international application in the language in which it was filed, unless otherwise indicated under this item.
 - ☐ This report is based on translations from the original language into the following language, which is the language of a translation furnished for the purposes of:
 - ☐ international search (under Rules 12.3 and 23.1(b))
 - ☐ publication of the international application (under Rule 12.4)
 - ☐ international preliminary examination (under Rules 55.2 and/or 55.3)
2. With regard to the **elements*** of the international application, this report is based on *(replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report):*

Description, Pages

1-5 as originally filed

Claims, Numbers

1-12 received on 04.02.2005 with letter of 02.02.2005

☐ a sequence listing and/or any related table(s) - see Supplemental Box Relating to Sequence Listing

3. ☐ The amendments have resulted in the cancellation of:
 - ☐ the description, pages
 - ☐ the claims, Nos.
 - ☐ the drawings, sheets/figs
 - ☐ the sequence listing (*specify*):
 - ☐ any table(s) related to sequence listing (*specify*):
4. ☐ This report has been established as if (some of) the amendments annexed to this report and listed below had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).
 - ☐ the description, pages
 - ☐ the claims, Nos.
 - ☐ the drawings, sheets/figs
 - ☐ the sequence listing (*specify*):
 - ☐ any table(s) related to sequence listing (*specify*):

* If item 4 applies, some or all of these sheets may be marked "superseded."

- 2 Novelty and Inventive Step (Articles 33(1), (2) and (3) PCT)

None of the cited prior art documents D1-D5 teaches or suggests using native cross-linked lupin protein to prepare formulations comprising fat-soluble active ingredients. The formulations according to claims on file exhibit increased stability.

Thus, the subject-matter of independent claims 1, 9 and 10 is considered to be novel and inventive.

Claims 2-8, 11, 12 are dependent on claims 1 and 10 and as such also meet the

**INTERNATIONAL PRELIMINARY
REPORT ON PATENTABILITY
(SEPARATE SHEET)**

International application No.

PCT/EP2004/003110

requirements of the PCT with respect to novelty and inventive step.

Case 21722What is claimed is:

1. Stable powderous formulations comprising a fat-soluble active ingredient in a matrix of a native lupin protein composition wherein the protein is cross-linked.
2. Formulations according to claim 1, wherein the lupin protein composition is a lupin protein isolate having a protein content of more than 90 wt.-%.
3. Formulations according to claim 1, wherein the lupin protein composition is a lupin protein concentrate having a protein content of about 60-90 wt.-%.
4. Formulations according to claim 1, wherein the lupin protein composition is a lupin protein flour having a protein content of about 40-60 wt.-%.
5. Formulations according to claim 1, comprising mixtures of native lupin protein compositions as defined in claims 2-4.
6. Formulations according to claim 1, wherein the fat-soluble active ingredient is vitamin A, D, E or K, or a carotenoid, or a polyunsaturated fatty acid, or esters thereof, or mixtures thereof.
7. Formulations according to claim 1, wherein the fat-soluble active ingredient is a plant or animal oil or fat, particularly sunflower oil, palm oil or corn oil.
8. Formulations according to claim 1, comprising additionally a reducing sugar, particularly glucose, fructose, or xylose.
9. Food, beverages, animal feeds, cosmetics or drugs comprising a formulation according to any one of claims 1 - 8.
10. Process for the preparation of formulations according to any one of claims 1 - 8, which comprises preparing an aqueous emulsion of the fat-soluble active ingredient and the native lupin protein composition, if desired, adding a reducing sugar, converting the

- 2 -

emulsion into a dry powder, and submitting the dry powder to cross-linking the protein by heat treatment or by treatment with a cross-linking enzyme.

11. A process according to claim 10 wherein a reducing sugar is added and the composition is submitted to crosslinking by heating.

- 5 12. A process according to claim 10 wherein the composition is submitted to crosslinking by treatment with a cross-linking enzyme, particularly transglutaminase.
